One-Piece Flow

Lean Manufacturing

“The challenge is to develop a learning organization that will find ways to reduce the number of kanban... So kanban is something you strive to get rid of, not to be proud of.”

--Jeffrey Liker, The Toyota Way

Proposed 4	ACTIVE					RESOLVED			CLOSED
	In Process 2	PROPOSED	ACTIVE 5	RESOLVED 4	CLOSED	READY 1	TEST 2	DEPLOY 4	
R7	R6	F6.5	F6.3	F6.2	F6.1		R9 B7.1	R3	R1
R8			F6.4						R2
R9	R5		B5.2	B5.1

<http://www.baeind.com/manufacturing.asp>

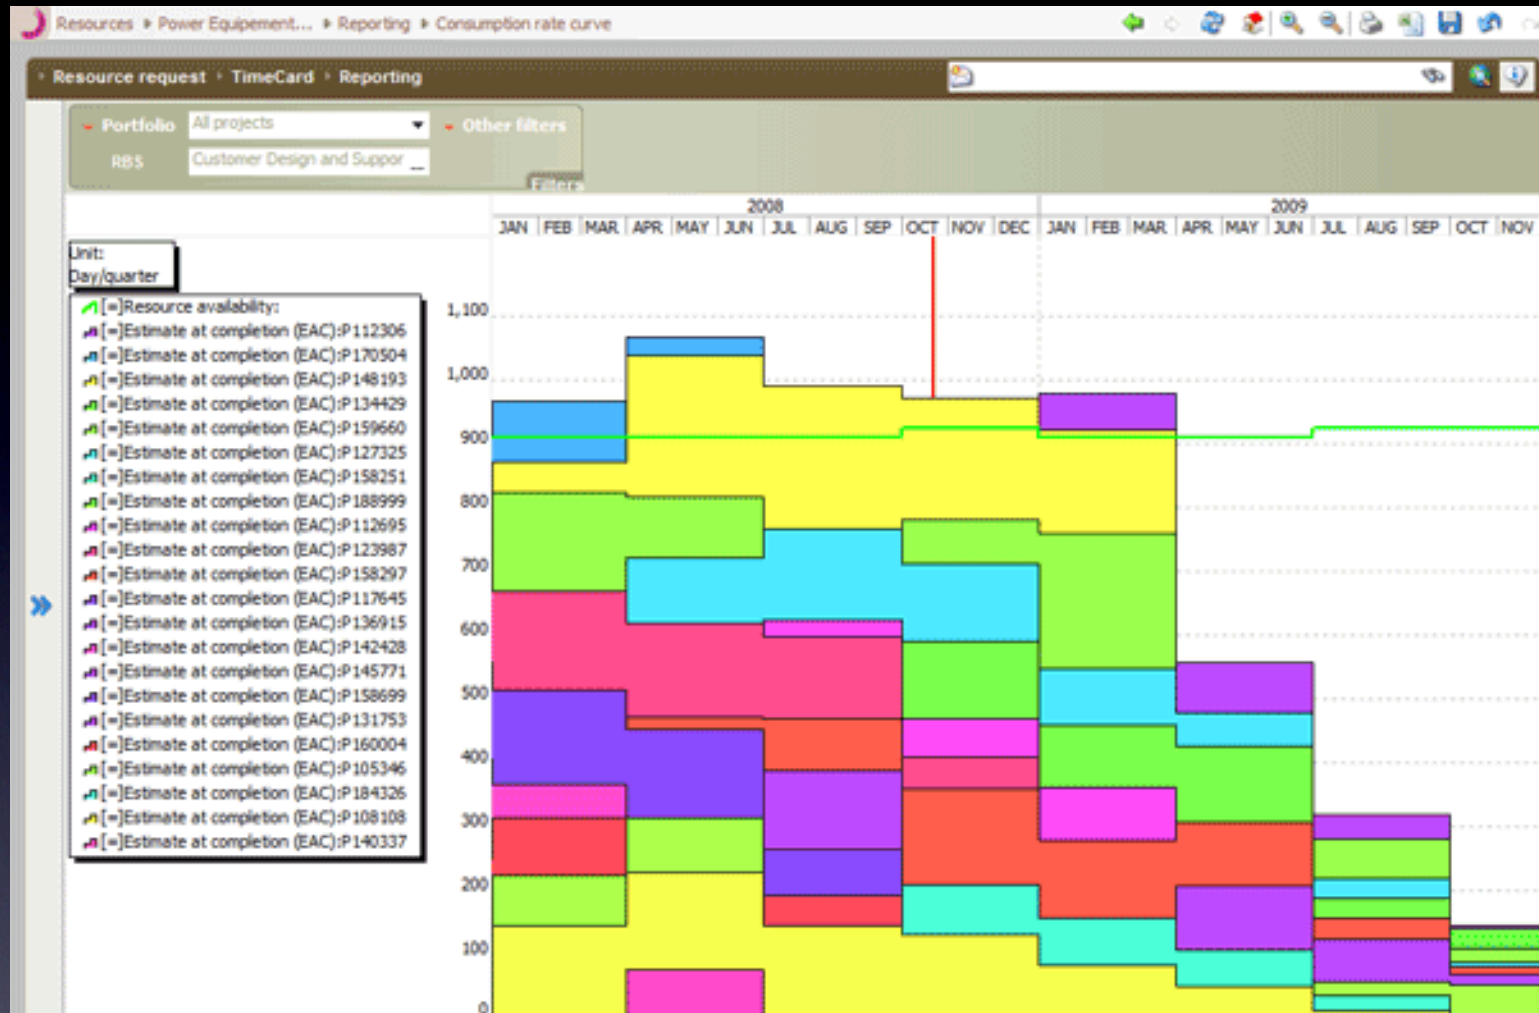

“[W]e arranged machines in parallel lines or in an L shape and tried having one worker operate three or four machines along the processing route... Our craftsmen did not like the new arrangement requiring them to function as multi-skilled operators.”

--Toichi Ohno, as quoted by Jeffrey Liker, *The Toyota Way*

Agile One-Piece Flow

Agile Team : Large-Scale Agile

::

Lean Work Cell : Lean System

To
Do Large-Scale Agile Well

You Must First
Do Single-Team Agile Well

(Enterprise “Agile” Need Not Apply)

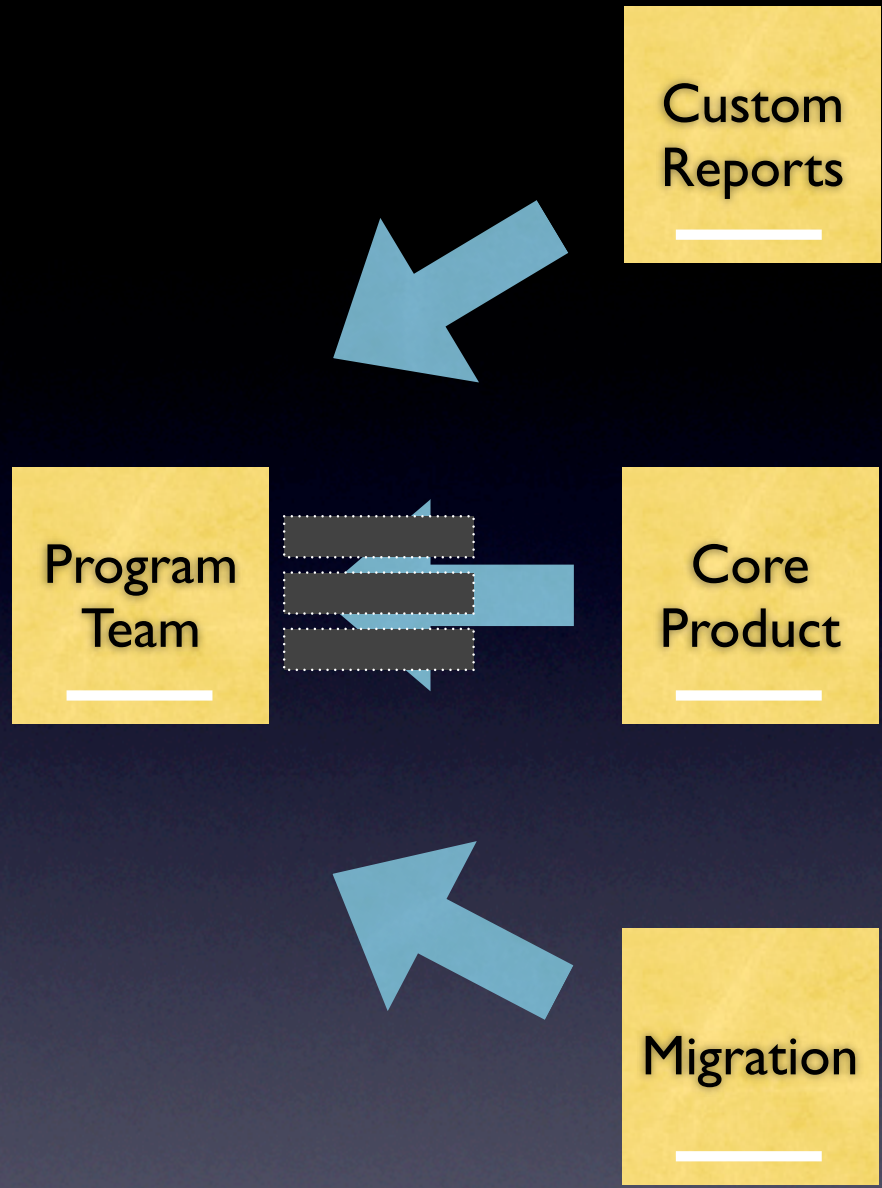

Create Work Cells

and

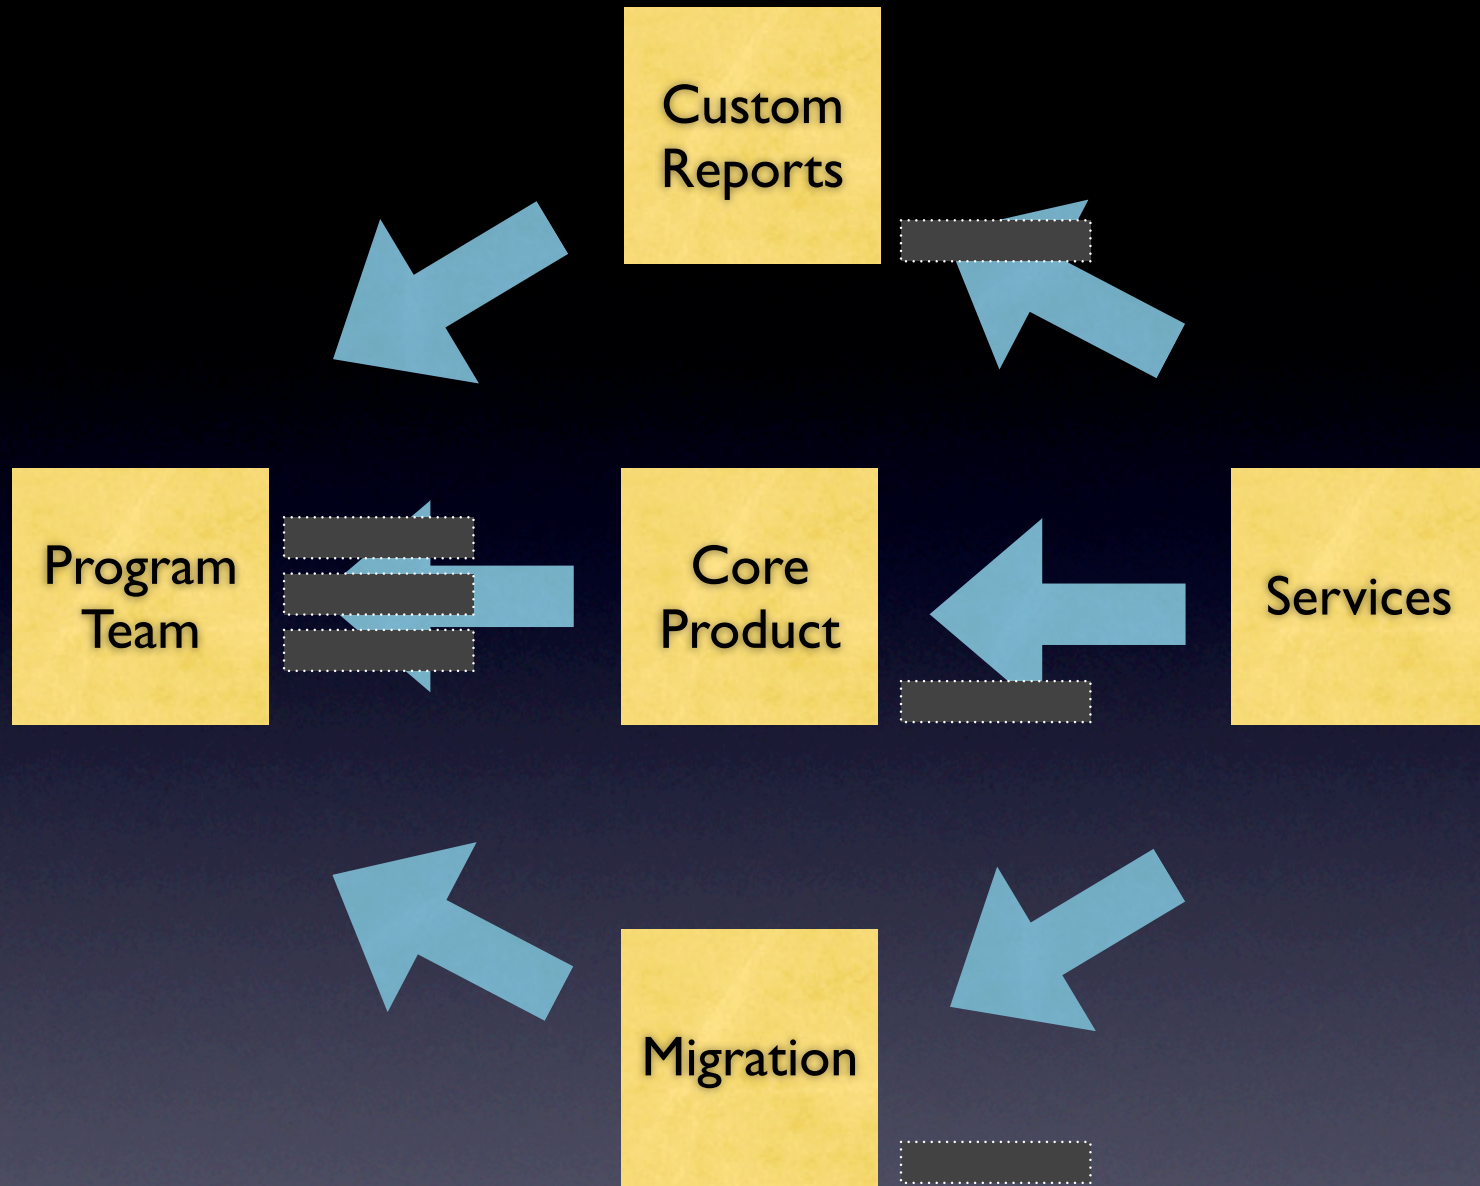

Coordinate Teams with Kanban

Large-Scale
Agile (Poor)

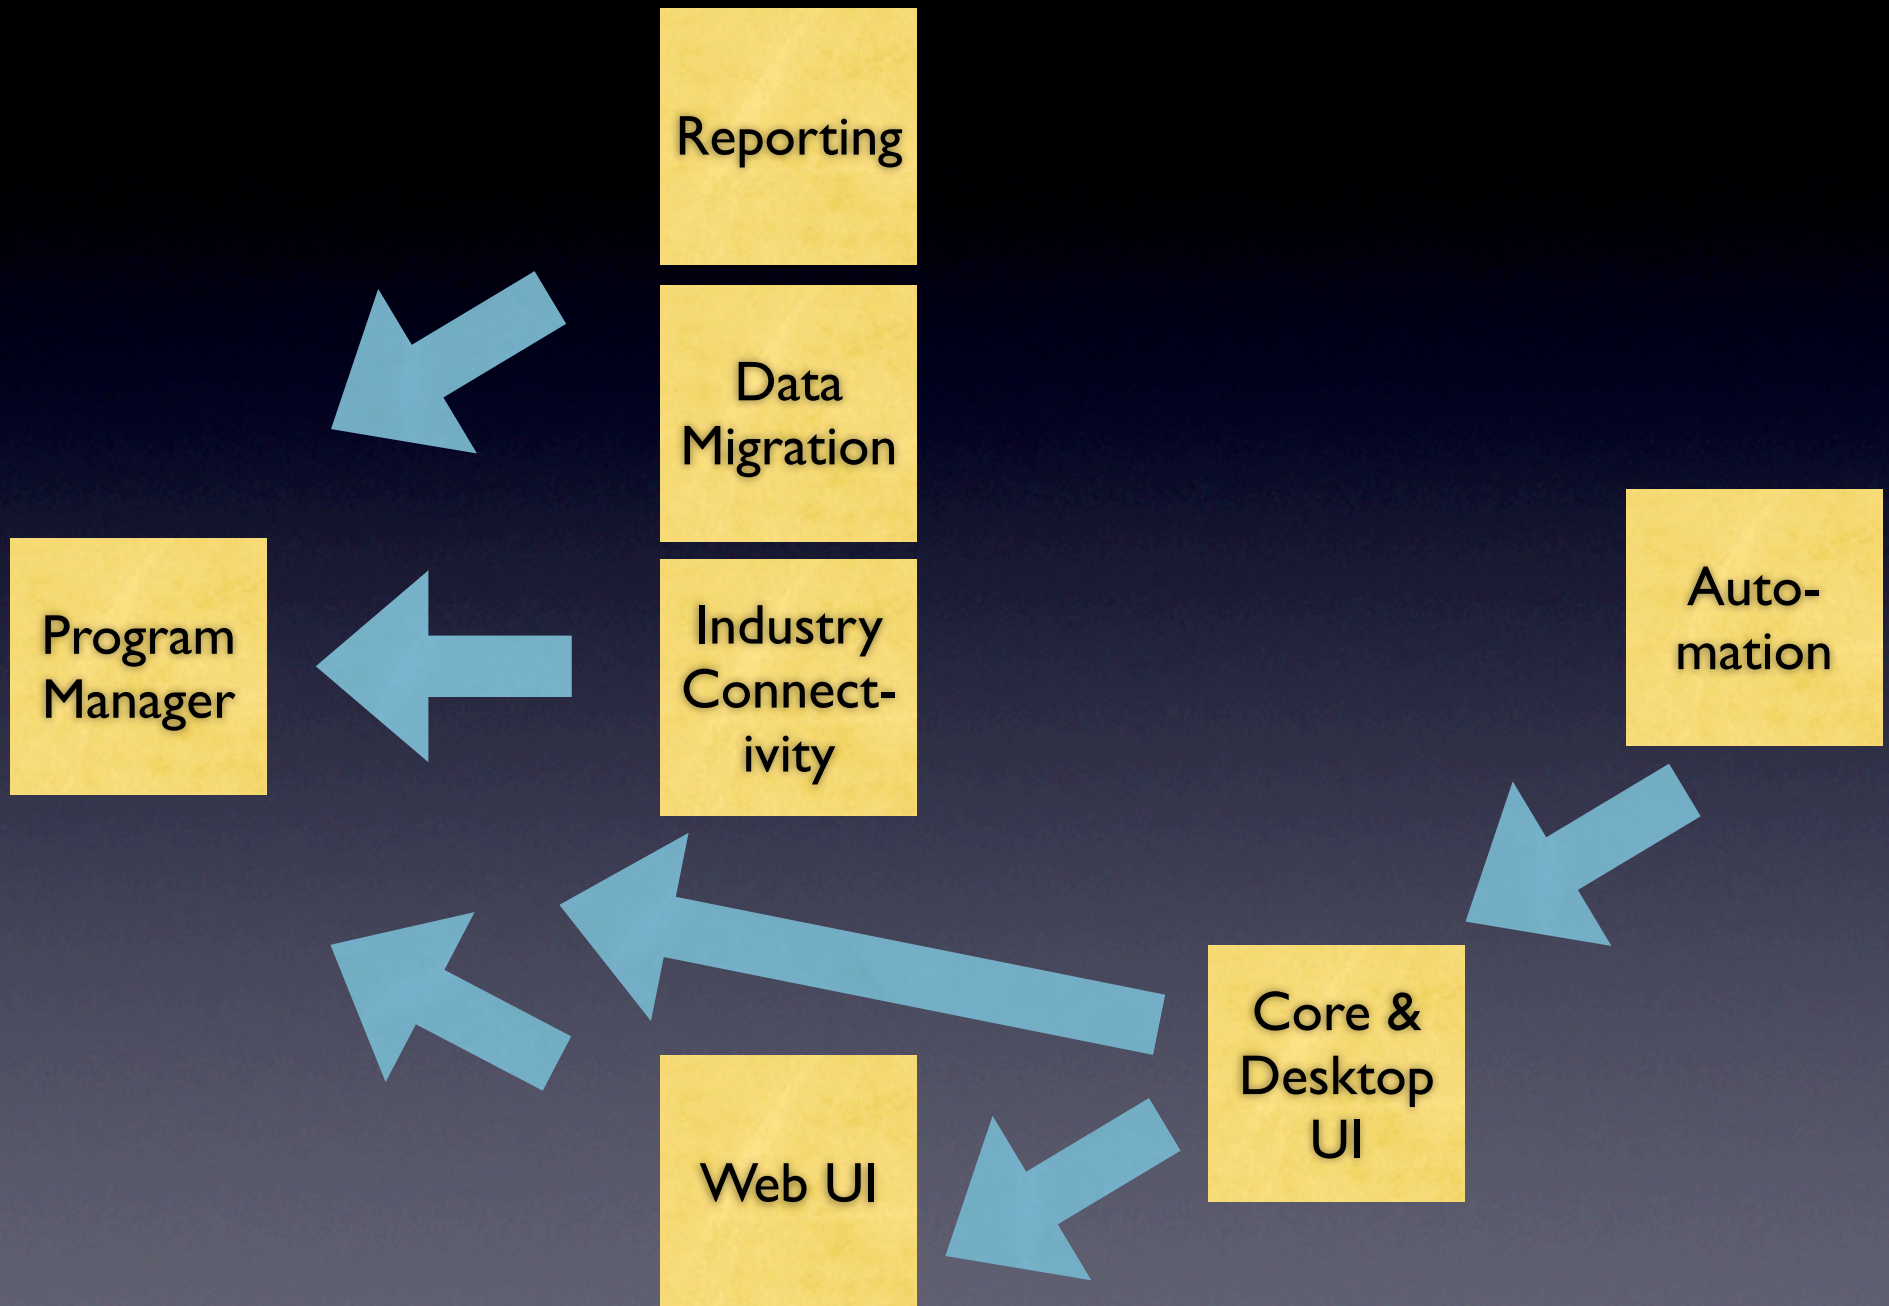

Large-Scale Agile

Large-Scale
Agile

Real World Example

Respect the Software

1. One team per bounded context
2. Team ownership of code quality
3. Long-lived teams

Respect the System

1. Minimize hand-offs and number of teams
2. Favor throughput over re-use
3. Feral architects & learning organization

Respect the People

1. Visual control & defined interfaces
2. Overlapping stand-up circles
3. Self-organizing, cross-functional teams who fully own their work

Respect Competence

To

Do Large-Scale Agile Well

You Must First

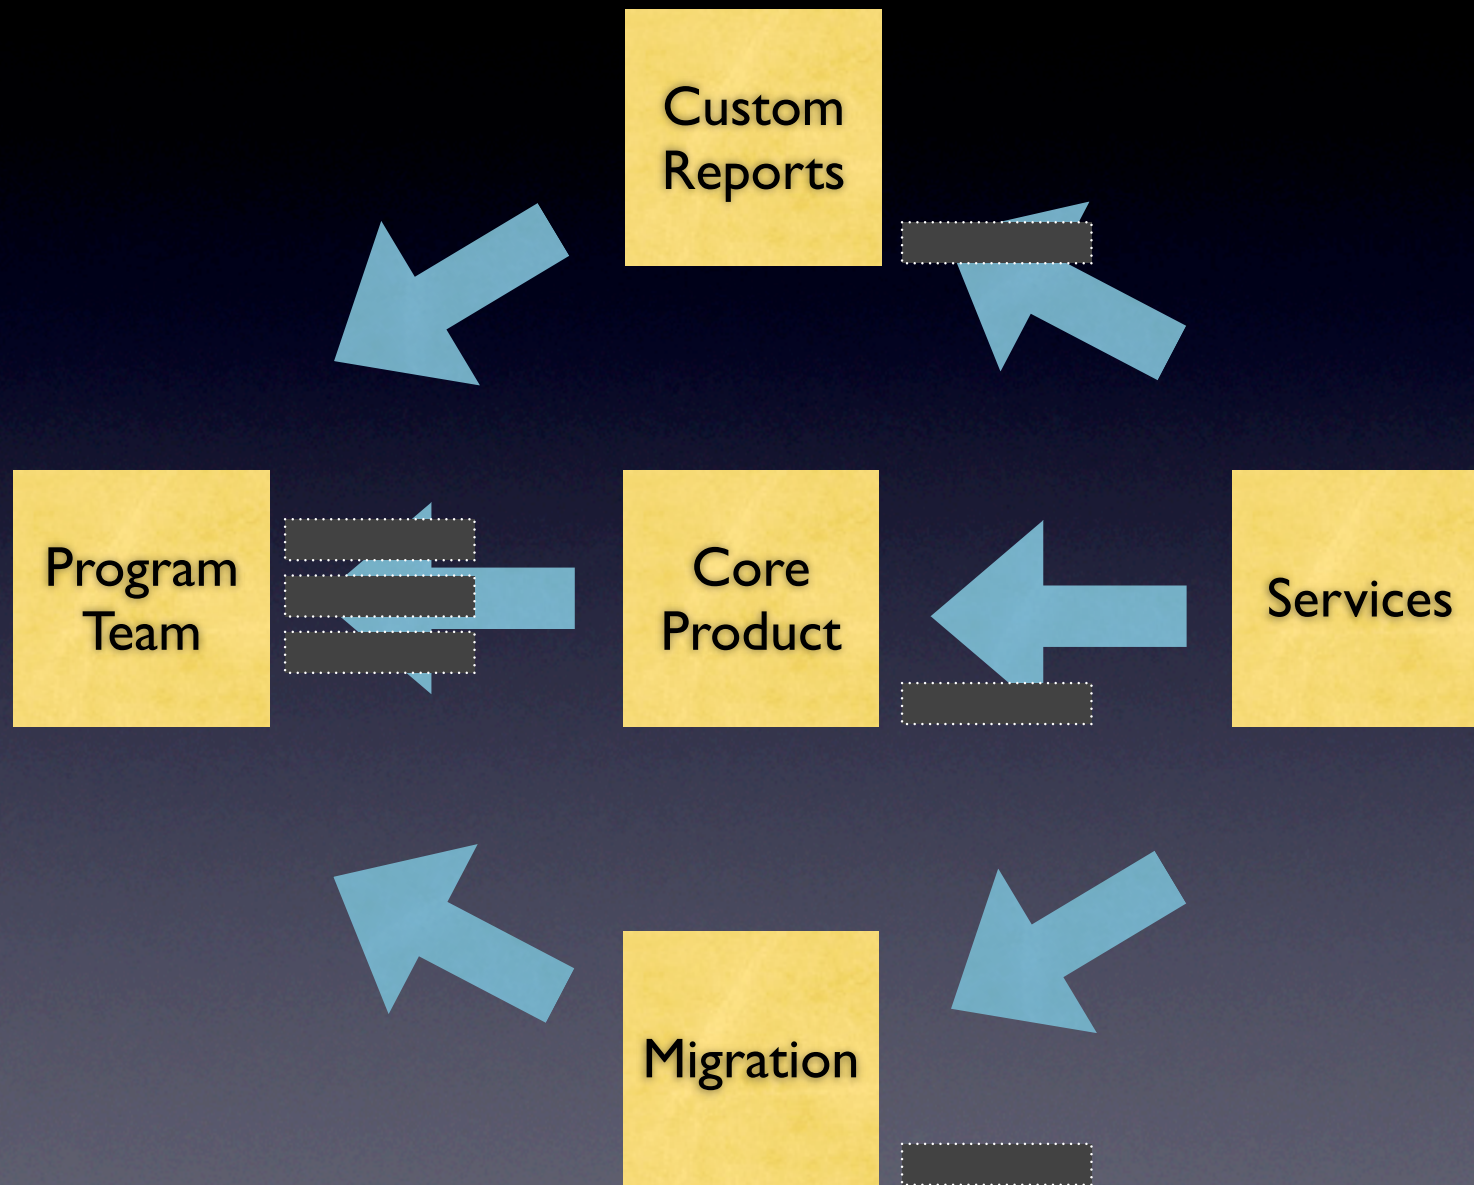

Do Single-Team Agile Well

I. Competent Agile Teams

Plan
Analyze
Design
Code
Test
(Automate) Deployment

2. One-Piece Flow with Kanban

3. Create a Learning Organization

“The challenge is to **develop a learning organization** that will find ways to reduce the number of kanban... So kanban is something you **strive to get rid of**, not to be proud of.”

--Jeffrey Liker, The Toyota Way
